

ASMIT RAJ

Ex- Founder | Product Manager (5 Years)

+91 8957686354 asmitraj.kushwaha@gmail.com linkedin.com/in/asmitraj https://www.dhagakart.com

EDUCATION

- National Institute of Technology, Tiruchirappalli (NIT Trichy)
B.Tech (Metallurgical & Materials Engineering) 07/2017 - 06/2021
- Birla Institute of Technology and Science (BITS PILANI)
MBA (Online) Strategy & Consulting 2025 - Present

EXPERIENCE

- Founder & Product Head
DhagaKart 11/2023 - 02/2026 Bengaluru, Karnataka
 - Founded** and owned a 0→1 B2B textile managed marketplace, defining product vision and MVP strategy to drive **Rs. 4.8 Cr ARR** and achieve approx **25% buyer activation rate post-launch**.
 - Owned end-to-end marketplace funnel (**discovery → activation → transaction**), increasing repeat purchase rate by approx 20% via continuous feedback loops, behavioral analysis (cohort-based retention metrics), and supply-side incentive alignment.
 - Led product discovery across 150+ manufacturers to map procurement journeys and identify key drop-off points, leveraged **vibe coding (AI)** to rapidly **shipped RFQ workflows, dynamic pricing engine, and vendor comparison systems**, improving **feature adoption by 30%** and reducing decision fatigue
 - Improved **buyer-to-order conversion by 28%**, increased **CTR by ~20%**, and reduced **funnel churn by 18%** by redesigning pricing visibility, embedding trust signals, and optimizing checkout flows through continuous experimentation and A/B testing
 - Hired and led cross-functional teams** (engineering, operations, sourcing) to improve transaction success rate by approximately 20% and reduce operational friction through analytics-driven decision-making, weekly OKR syncs, and production validation across payment flows and vendor SLAs.

- Product Manager (associate)
Hero Vired (Hero Group of Company)
08/2022 - 10/2023 Bengaluru, Karnataka
 - Led end-to-end migration of Learning Management System (LMS) from Moodle (PHP) to React-based architecture**, improving platform scalability and driving a **44% increase in user engagement** through enhanced UI/UX redesign, onboarding flow optimization, and learner journey mapping.
 - Built and scaled **in-house fintech-enabled payment and onboarding platform** to improve fee conversion and **payment success rates by approx 30%**, integrating NBFC partner APIs (Propellid, Finance peer, Eduvanz) for real-time KYC verification, instant loan approvals, and seamless fee disburseals; **owned end-to-end data pipeline and stakeholder alignment**.
 - Redesigned student onboarding and loan-assisted enrollment funnel to reduce onboarding time by 25% and student drop-offs by 20%**, leveraging UX improvements, workflow automation (loan processing integration), and data-driven funnel optimization (cohort analysis, conversion tracking); improved financial accessibility and on-time fee collections.

- Product Manager -1
K12 Techno Services Pvt. Ltd 02/2022 - 08/2022 Bengaluru, Karnataka
 - Designed and launched an in-app Fee Management System** with Razorpay & Paytm integration, enabling ₹12Cr+ in annual transactions, **increasing on-time payments by 30%, and reducing manual work by 25%**.
 - Built and owned end-to-end data pipelines for automated result uploads and ID card generation, enabling real-time, error-free academic data processing across 70+ branches PAN India and 80K+ students, reduced processing time by 60% and achieved 99.5% data accuracy at scale.
 - Led a **full mobile UI revamp** using user feedback and analytics (Firebase, Mixpanel), **increasing parent logins by 35%, MAUs by 22%**, and reducing support tickets by 40%.

- Founding Product Analyst
OneCare (Acquired by ACKO) 06/2021 - 12/2021 Bengaluru, Karnataka
 - Collaborated with a tech agency, sales ops, and healthcare partners to **build and launch a glucose-tracking mobile app** integrated with an IoT CGM device, **delivered MVP in 45 days** and acquired 100+ paying users in the first week.
 - Conducted extensive market research by visiting 50+ hospitals and clinics across Bangalore, gathering deep user insights to inform product design, feature prioritization, and GTM strategy.

SUMMARY

Ex-founder and product manager with 5+ years of experience in 0→1 builds, product strategy, and execution across B2B/B2C. Proven track record of turning user insights into scalable, high-impact products. Now leveraging AI-powered prototyping and vibe coding to rapidly test, iterate, and ship with speed.

PERSONAL PROJECTS (AI)

- AI Agent for Automated Feature Prioritization
Developed an LLM-powered AI agent leveraging n8n, Claude, and OpenAI to aggregate and analyze multi-channel e-commerce product listing feedback and automatically generate prioritized, actionable feature recommendations for product roadmap planning
- YouTube Summary Infographic AI Agent
Developed an AI agent that retrieves YouTube video transcripts via the YouTube Data API and REST APIs, orchestrates automated workflows using n8n and NanoBanana Pro, and leverages OpenAI (GPT-4) and Claude to generate structured one-page summaries with key insights and actionable takeaways, deployed on Hostinger

TOOLS & TECHNOLOGIES

- AI/LLM: OpenAI (GPT-4 APIs), Claude Code, n8n, RAG, Orchestration, AI agents
- Product & Analytics: Jira, SQL, Amplitude, Productboard, Confluence, MixPanel
- Technical & Cloud: Postman, GitHub
- Design & Visualization: Figma, Tableau, Google Analytics

PRODUCT SKILLS

Vibe Coding	Agile	PDLC
Wire-framing	User Stories	Growth
Sales	UI/UX	PRD
	MVP	
System design	Stakeholder Management	
Prioritization	Market Research	Scrum
Road Map Plan	OKR Alignment	
A/B Testing	Competitive Analysis	

CERTIFICATION

- Scrum Foundation Professional Certificate (CSM)
- Google Analytics
